

# TAKEOFF STARTER FERTILIZER

## Take on spring with TAKEOFF Powered by AVAIL® Phosphorus Fertilizer Enhancer

Give your corn an early advantage with TAKEOFF Starter Fertilizer.

TAKEOFF combines a unique blend of essential micronutrients with the unique technology of AVAIL® Phosphorus Fertilizer Enhancer. AVAIL increases phosphorus efficiency by reducing phosphate fixation, resulting in a potential yield boost of up to 10-15%.

- Safe for in-furrow applications
- 3-5 gallon application rates
- Micronutrient package includes zinc, manganese, and copper
- Uses AVAIL to increase phosphorus efficiency by reducing fixation

AVAIL reduces the bonds that lock phosphorus into the soil, keeping it available for the roots in your crop. More available phosphorus is proven to increase potential yield by as much as 10-15%.

For more information, talk to your local All Points agronomist.
